

EMPOWERING THE PEOPLE OF THE DEVELOPING WORLD

THE AGA KHAN UNIVERSITY

OUR MISSION

The Aga Khan University
empowers the people
of the developing world
with the knowledge
and skills to realize their
highest goals.

We provide a transformative education that prepares our graduates for local and global leadership. We generate solutions to problems that affect millions of people through pioneering research. We strive to achieve world-class excellence, inspiring individuals and institutions to meet the highest standards.

Because everyone deserves the opportunity to fulfil their potential, we serve the disadvantaged and work where the need is greatest. Together with our partners, AKU builds bridges across borders and boundaries of all kinds, recognizing that humanity's diversity is one of its greatest assets.

5

- 1 Students at a school in Karachi affiliated with AKU's Examination Board. Ninety per cent of students at Board-affiliated schools are admitted to university.
- 2 Residents at the Aga Khan University Hospital, Nairobi.
- 3 The 83-acre Stadium Road campus in Karachi.
- 4 The Aga Khan Centre in London, home to AKU's Institute for the Study of Muslim Civilisations.

5 The Institute for Educational Development, Pakistan, which provides graduate-level education for teachers and educational leaders.

6 A surgical suite at the Aga Khan University Hospital, Karachi.

7 The Aga Khan University Hospital, Nairobi.

8 Students in the Bachelor of Science (Post-RM) in Midwifery programme in Uganda, the country's first such programme.

WHERE EXCELLENCE POWERS IMPACT

Not-for-Profit

No dividends or distributions are paid to any individual or institution.

Academic Leader

Pakistan's first private university, #1-ranked medical college and most influential nursing and midwifery school.

First Mover

We introduced Pakistan's first Bachelor of Science in Nursing and Kenya's first Diploma in Oncology Nursing—and those are just two of the nine degrees, diplomas and academic programmes that we were the first to offer in the countries where we work.

Excellence in Health Care

First hospitals in Pakistan and East Africa to meet the rigorous quality and safety standards for accreditation by the U.S.-based Joint Commission International.

Research with Impact

Six of Pakistan's 10 most productive health researchers are AKU faculty members, according to the Pakistan Council for Science and Technology. In 2016, we received a \$25 million grant from the Bill & Melinda Gates Foundation to improve health for millions of low-income mothers and children.

Education for All

More than 30,000 primary and secondary educators and hundreds of thousands of students in East Africa and Pakistan have benefitted from the work of our Institutes for Educational Development and our Examination Board.

Trusted Partner

\$345 million in grants and concessional loans received from foundations, corporations and multilateral and bilateral organizations since 2010. \$580 million in individual donations received to date.

Trusted Advisor

Influencing government policy and action for regional and national impact.

Experienced Leadership

Founded in 1983 by His Highness the Aga Khan, Chancellor of AKU. Our Board of Trustees includes current and former leaders of academic, business and government institutions on four continents, including the University of California, San Francisco; the American University in Cairo; the Massachusetts Institute of Technology; the Universidade NOVA de Lisboa; the University of Alberta; and the University of Toronto.

Bold Ambitions

Our plans include launching undergraduate liberal arts education programmes and new graduate professional schools in East Africa and Pakistan; pursuing groundbreaking stem-cell research; building a new University Hospital and academic complex in Uganda; and adding other major facilities in Pakistan, Afghanistan, Kenya and Tanzania.

Part of AKDN

We are an agency of the Aga Khan Development Network, one of the world's largest private development organizations. We collaborate with our fellow AKDN agencies to amplify our impact.

EDUCATING LEADERS

“It’s not so much that 12,000 people were educated at AKU, but rather that *one* person was educated here—and that this individual, life-transforming story has happened now some 12,000 times.”

His Highness the Aga Khan
Convocation Address, 2015

Our alumni are delivering high-quality health care around the world; working to ensure that every child gets a great education; launching startups; conducting research at the global cutting edge; and managing major government programmes. They are making a positive difference in millions of people’s lives, whether at the Bill & Melinda Gates Foundation or UNICEF; Johns Hopkins

University, Dow University of Health Sciences or their own alma mater; Magodzoni Dispensary, Morogoro Regional Referral Hospital, the Ministry of Public Health of Afghanistan or the Mayo Clinic. Some of the many leadership positions held by our alumni are listed on pages 12 and 13.
