Economic Evaluation; Theory and Practice

Standalone Course with Graduate Credits

September 5th – December 26th, 2024 | 2:30 pm to 5:30 pm | Every Thursday

The Master of Health Policy and Management (MHPM) Programme is pleased to announce a standalone course scheduled for September-December 2024. This course is part of the programme curriculum but can also be taken without enrolling in a degree programme. Course credits can contribute towards a master's degree.

Course Description

This course is designed to give students a solid background in health economic principles and their application in health and medicine for decision-making. Decision-making is a crucial element in treatment, and resource allocation is at the heart of decision-making in the healthcare sector. Policymakers and health insurers have to decide what to promote, what to discourage, and what to pay for. Together, these decisions determine the quality of health care provided in a resource-constrained environment. Economic evaluation is an approach used to support decision-makers in allocating resources by providing tools to compare the costs and benefits associated with multiple alternative scenarios or interventions. This course introduces the basic principles of economic evaluation as applied to healthcare interventions, the different types available, and the various stages and techniques that need to be applied to generate results.

Course credits can contribute towards a master's degree:

Candidates who will achieve a cGPA of 3.5 or above after completing two courses or a cGPA of 3.0 or above after completing three courses are exempted from writing the Admission Test. They will be required to appear for an Interview. The courses are valid for three years only for entry into the MHPM programme.

Audience

- Programme managers from NGO and public sectors, policymakers, health system researchers, and health system academia
- Professionals from medicine, allied health professions, and biological sciences.

Course Director: Dr. Maryam Huda

Course fee: PKR 105,900

Register by: August 9, 2024
