

Child Development and Rehabilitation Center

Department of Paediatrics and Child Health

Packages for One-to-One Therapy Sessions

These therapy sessions use personalised interventions and evidence-based therapies to empower children suffering from developmental disabilities such as Autism Spectrum Disorder, Global Developmental Delay, Language Disorders, etc. The sessions are designed for ages 6 months to 18 years and each session will be for 30 minutes. A prior evaluation from a Developmental Paediatrician or a Paediatric Neurologist is recommended, though self-referrals are also accepted. Therapies include Behaviour Therapy, Speech Therapy, and Occupational Therapy. You can either take one type of therapy at a time or request a combination as per the advice of your child's doctor.

Package A:

Rs. 20,000

- 8 therapy sessions.
- All sessions should be availed within 2 months.

Package C:

Rs. 34,000

- 16 therapy sessions.
- All sessions should be availed within 3 months.

Package B:

Rs. 28,000

- 12 therapy sessions.
- All sessions should be availed within 2 months.

Package D:

Rs. 39,000

- 20 therapy sessions.
- All sessions should be availed within 3 months.

Terms and Conditions:

- Prices are subject to change without prior notice.
- Up to two sessions can be rescheduled, with prior information. If no prior information is received, the session will be charged. If more than two sessions are missed, with or without information, sessions will be charged and not rescheduled.
